CAPABILITY STATEMENT

ABOUT TRIPLEG3

TripleG3 Consulting LLC is a certified Woman Owned Small Business (WOSB) specializing in software solutions.

We offer services for IT staff augmentation, software modernization and application development. Our hiring efforts set us apart from our competitors in that we have them all fully vetted and endorsed by Senior Software Architect leaders with over 20 years of experience. Modernization projects are completed accurately the first time by using our in-house methodologies alongside Agile methods. We are unique in our application development procedures by ensuring all clients receive POC's prior to project start, using the most modern frameworks and design tools to ensure faster deliverables, minimal to no errors or bugs and easier future upgrading capabilities.

CORE COMPETENCIES

System Integration • Procurement/Contracting
SDLC Software Development • Cloud Computing & VDI
Design/Programming • Software Quality Assurance • Enterprise-Wide Mobility
IT Staff Augmentation • IT Infrastructure Planning • Managed Services
Methodical Problem Solving • Troubleshooting & Maintenance

DIFFERENTIATORS

Strong Past Performance	100% Onshore
Dedicated Resource Pools	Provide Multiple POCs
Process Oriented Approach	Dedicated UI/UX Team
QA Management Processes	Understands Market Changes
Seasoned Management Team	Fully Vetted Development Team
Rapid Response Recruiting Process	Continuous Growth in Technologies
Focused on Maximizing Client's ROI	Clear and Precise Communication

Why Choose Us?

We have gathered a team of developers, designers, and IT specialist with decades of experience to guide you, educate you, and help you achieve your software goals. Our Mission is to make software development accessible to all. Whether that be a person with an idea, a company needing guidance for a software related decision, or even new applications for the US government. We can scale our services to any project size.

Let our team of subject matter experts Design, Build, and Manage your next IT project.

magic, VPN, Windows Phone

Past Performance

The following past performance examples demonstrate our successful track record and commitment to our clients. Through staff augmentation or inhouse development, TripleG3 is committed to delivering the same high-level service to your organization. These examples illustrate our successful process of anticipating client needs, targeted recruiting, careful identification of the right candidates, and exceptional customer service.

Driscoll Health System

Modernization of WinForms application that worked as a roundhouse solution for, managing customers, interviews, medical records, etc. for customers. Application was re-written in .NET framework using C# and Dapper for Data Store Management on various servers. DevExpress was used and customized for UI allowing quicker development on front end. GitHub was used to manage developer tasks, testing and used Git as version control

Contract length: 4 Months

Global Medical Response (GMR)

Project 1 - Retrieve customer data, display, and edit customer data, update customer data with Web API backend

Project 2 - Migration from WinForms to Blazor

Project 3 - Used rapid API to develop software used on a KWS device for emergency medical staff, tested and ensured delivery of the signal to Helicopter EMS

Contract length: 17 Months

InEight

Web App for documents management system

Contract length: 6 Months
